Medical Equipment and Supply Control

725.1 PURPOSE AND SCOPE

This policy outlines the control and inventory process to be utilized in accounting for all medical equipment and supplies. Medical equipment and supplies can pose a hazard for both the inmate population and the staff. Unauthorized possession of medical equipment and supplies constitutes possession of contraband. Unauthorized use of medical equipment and supplies violates inmate rules detailed in the inmate handbook. Since it is necessary to have a well-stocked medical space within the secure perimeter of the facility, there must be a plan to ensure that equipment and medical supplies are accounted for and tightly controlled.

725.2 POLICY

It is the policy of this office that all medical equipment, including sharps, dental instruments, needles and other items must be tightly controlled so they cannot be used as weapons or to facilitate the injection of drugs or other substances. Additionally, these tools and supplies must be controlled to prevent exposure to biohazards.

725.3 STAFF RESPONSIBILITIES

It is the responsibility of the Chief Deputy of Corrections to ensure that the inmate handbook clearly defines the unauthorized possession and/or use of medical equipment and supplies as a rule violation that may result in discipline.

The contract medical provider or the authorized designee shall create and maintain an inventory log for all medical equipment and supplies. This log will be utilized by medical personnel who work within the facility to track and control medical equipment and supplies. When not in use, all medical equipment and supplies shall be stored in a secure manner to prevent unauthorized access.
